Which meetup did you attend? Tech in the music industry

What did you learn? I learned that meeting new people and networking are super important. I have to put myself out there and talk more with people in the tech field to be given a shot in this new industry. I am really excited to get out there and meet some more people at another event. I didn’t really even know these existed.

Did you meet anyone new? I meet several new developers for Sony, They handle making sure the artists videos play on different platforms and ca be streamed through many sites. I also met with several people who manage the catalogs of music and handle payouts for the royalties that are due.
